Sculpture Key West 2005 Exhibition

As the 2005 Sculpture Key West season draws to a close, many have called this year's exhibition our most successful show yet.

This year Sculpture Key West featured 68 artists who created 78 pieces sited in and around the park, beach, fort and moat. This represents a 25% increase in the number of artists from the very successful 2004 exhibition. As a result, the 2005 show attracted a record number of visitors and more extensive press coverage than ever before.

The 2005 exhibition involved artists from far and wide, including three international artists: Emil Adamec, Christina Baun and Gerhard Fousek. Emil Adamec arrived from the Czech Republic before Christmas to find his local materials and carve the male and female torsos (pictured right). Christina Baun from Germany and Gerhard Fousek from Austria also participated in the show.

Sally Port Auction a Success, Plans for Expansion

This year's first annual Sally Port Auction was a great success. What is the Sally Port? It's a military term used to describe the room where the missions were planned and initiated. The name was chosen to honor SKW's connection to the beautiful fort and the synergy created by juxtaposing contemporary art within its historic context.

The Sally Port Auction featured maquettes and drawings from the exhibition and was held at the historic Gardens Hotel, thanks to the generosity of owner, Kate Miano.

auctioneers Sean Strub and Hal Bromm for their enthusiastic assistance

This year's invitation-only live auction featured maquettes of Susan Rodgers "Tumbleweeds", of Joe Wheaton's "Morality Dressed for Dinner", of Roberta Marks' "Still Waiting" and of several other wonderful works. SKW thanks guest

Next year SKW plans to expand the event to include more works and artists. Watch for news of the 2006 date!
